EXPLANATORY NOTES:

The Swedenborg Collection consists of the Society's holdings of the Printed Editions of Swedenborg's Works, Swedenborg Biographies, and the published facsimiles of Original MSS produced by Photolithography, Phototypegraphy, and Photostat.

The Catalogue is based upon the Chronological-Numerical arrangement adopted by the Rev. James Hyde, in his monumental "Bibliography of the Works of Emanuel Swedenborg", London, 1906.

Each separate Treatise, therefore, bears its own ROMAN Number (I-CC), and is placed in the order of its appearance. Each edition or reprint of each Treatise appears in CHRONOLOGICAL ORDER under its Title, and is identified by an ARABIC Number (1-3000).

Editions published since 1906 have been indicated by a stroke added to the immediately previous edition number, followed by a numeral, viz: /1,2,3, etc; whereas, in the case of editions published before 1906, but not recorded in Hyde, a letter follows the stroke: viz: /a, b, c, etc.

As in the Bibliography, the editions of each Treatise are laid out in in the following sequence: (i) Original Languages, (ii) English Translations, (iii) Foreign Languages, (iv) Extracts.

The Composite Volume Section, and the Biographies occupy the latter part of the Catalogue.
